About Nantong University

Nantong University comprises of three institutions namely -Nantong Normal College, Nantong Medical College and Nantong Engineering College. It has 4 campus such as the new campus, Zhongxiu campus, Qidong campus, and Qixiu campus – where nearly 34000 full time students are housed.

Nantong Medical College is highly recommended for being the most reliable institution for pursuing mbbs in china, given the fact it is one of the oldest institutions in the country and known to offer students exceptional quality of pedagogic followed by professional experience.

Nantong Medical College is one of the most sought after medical universities for indian students in china, since the School of International Education here is mainly aimed for promoting international education. As of now there are more than 300 overseas students in this school who come from nearly 16 countries.

Most of the programs offered at Nantong University are in English while Chinese language is also being taught in this university. Hence, students who are looking for avenues to study mbbs in china, can safely opt for Nantong Medical University. The institution provides various disciplines such as medicine, literature, administration, engineering, science, pedagogy, law, economic and history.

One of the key factors that set Nantong Medical College apart from other medical universities in china is that it is recognized by WHO. Moreover the students who completed MBBS program from here are eligible to undertake the Medical Licensing Examinations held by the medical councils in various countries like PMDC, MCI, USMLE, SCHS and HPCSA, among others. The MBBS program here mainly focuses to make students understand the basic knowledge and elementary theory in medicine, gain clinical skills of common diseases diagnosis processing and difficult and severe symptoms, to state a few. On completing the program the MBBS graduates will be qualified to seek relevant careers in hospitals, the medical and health centres, medical science research departments and other medicine-related organizations. Additionally, the students have option to undertake internship.
